Winter Wildlife Tracking

Finding snowy animal tracks offers a glimpse into an otherwise unseen world. What can you find in your backyard or along the Conservation trails?

Helpful Tips

- Look for patterns
- Focus on details
- Don't just look down- but up and around
- Keep your distance

We're Hiring!

We are hiring for two positions on our summer conservation field crew and one crew supervisor. Basic job duties include mowing, brush-cutting, pruning, small construction, invasive plant removal, and native species planting. Ability to operate a Town vehicle is required; familiarity with small landscaping equipment is preferred.

Applicants must be willing to perform physical labor in the outdoors in all weather conditions and in areas with poison ivy, mosquitoes, ticks, dense brush, etc.

Please click [HERE](#) to learn more about the positions and for application instructions. Applications will be accepted until positions are filled.

Intro to Tree Identification
@Wright Farm

Sunday February 13th 10-11:30 A.M.

Come join the Conservation Land-Use Ranger for an introduction to winter dendrology at Wright Farm. We'll take a nice leisurely stroll while highlighting skills and techniques to aid in your winter tree ID.
